

# Fall Kusama

## *Verse 1:*

Under the shadow of a crypto fall,  
Kusama soars with resilience, standing tall.  
Governance shifts, a new path to tread,  
Voices rise as control's widespread.  
In September '22, hope ignites,  
With dreams of decentralization's lights.

## *Chorus:*

In the silence of a bear's embrace,  
Kusama's heart beats at a steady pace.  
We never stop building, come what may,  
In September's echo, we find our way.

## *Verse 2:*

Parachains bloom like stars in the night,  
Karura, Moonriver, pushing forward with might.  
Cross-chain bridges from Acala's gate,  
Interwoven futures, sealing fate.  
Tokens in turmoil, yet spirits stay true,  
Innovations thrive in a bold debut.

## *Chorus:*

In the silence of a bear's embrace,  
Kusama's heart beats at a steady pace.  
We never stop building, come what may,  
In September's echo, we find our way.

## *Outro:*

Kusama, the canary that sings,  
Amidst the downturn, new growth springs.  
In the shadows, our dreams take flight,  
Guided by stars in the crypto night.
