

Laid Kusama's

Verse 1:

In June 2021, a new path was laid,
Kusama's spirit, where blockchain dreams are made.
OpenGov rises, voices cast in light,
Token holders guiding through the night.
Parachains unlocked, a stellar sight to see,
Karura and Moonriver, paths to set us free.
In the cradle of change, innovation blooms,
Scalable visions, filling empty rooms.

Chorus:

Oh, Kusama, where governance flows,
In a world of crypto, where the future glows.
Resilient in the storm, standing tall and free,
Innovation's dawn on a digital sea.

Verse 2:

Statemine awakens, from Shell it was born,
Robust upgrades carried through the storm.
KSM stands strong, weathered by the skies,
In a volatile world, it rises and flies.
Projects emerging, a developer's theme,
KILT with digital dreams, on identity's beam.
As markets waver, Kusama holds its ground,
A relentless pulse, where progress is found.

Chorus:

Oh, Kusama, where governance flows,
In a world of crypto, where the future glows.
Resilient in the storm, standing tall and free,
Innovation's dawn on a digital sea.

Outro:

June 2021, memories etched in chains,
The journey's just begun, where the spirit reigns.
Kusama, your name, in whispers it roams,
In the heart of crypto, you've made a home.
