

# Heart Kusama

## ***Verse 1:***

In March '22, the winds of change blew,  
In the heart of Kusama, where dreams come true.  
Parachains auctioned, Kintsugi arose,  
Bringing Bitcoin here, where open access grows.  
Governance flying on wings of debate,  
We vote for a future we co-create.

## ***Chorus:***

Oh, canary in the mine, you're a beacon in the blue,  
Testing the paths for Web 3.0's breakthrough.  
Through the storms of market tides, you stand strong,  
Kusama, where the daring belong.

## ***Verse 2:***

Upgrading the language of chains, XCM seeks,  
Seamless flows, in every block it speaks.  
Asynchronous hopes, our dreams extend,  
With tenfold growth, where limits bend.  
In the sea of tokens, KSM weathers waves,  
With a hopeful gaze, into the future it paves.

## ***Chorus:***

Oh, canary in the mine, you're a beacon in the blue,  
Testing the paths for Web 3.0's breakthrough.  
Through the storms of market tides, you stand strong,  
Kusama, where the daring belong.

## ***Bridge:***

A nest of innovation, where DAOs rise and shine,  
In this vibrant community, our futures intertwine.  
From Polkadot to the stars, we'll expand the line,  
In Kusama's realm, the brave define.

## ***Chorus:***

Oh, canary in the mine, you're a beacon in the blue,  
Testing the paths for Web 3.0's breakthrough.  
Through the storms of market tides, you stand strong,  
Kusama, where the daring belong.
