

# Kusama Rising

## *Verse 1:*

April 2021, skies opened wide,  
Kusama soared on a blockchain ride.  
Parachains in a race, pushing to the fray,  
A thousand voices voting, paving a new way.  
Gavin said, “We’re almost there,”  
Feature complete, the future’s fair.  
Projects lined in the parachain queue,  
Karura, Moonriver, dreaming anew.

## *Chorus:*

April winds of change,  
Kusama’s dreams in range.  
With every KSM, the tide will rise,  
Governance by chain, where freedom lies.

## *Verse 2:*

Treasury opens, funds for the brave,  
Communities build, and pathways pave.  
Workshops buzz, and networks hum,  
Preparing for battles yet to come.  
A million tokens, the hands of time,  
KSM values climb like a chime.  
In this canary network’s flight,  
The dawn of blockchain’s new daylight.

## *Chorus:*

April winds of change,  
Kusama’s dreams in range.  
With every KSM, the tide will rise,  
Governance by chain, where freedom lies.

## *Outro:*

Parachains ready, excitement in the air,  
April was just the start, future fair.  
In Kusama’s code, we trust and believe,  
A blockchain quest, in April we weave.
